Guidance on Covering Nose and Mouth

A significant percentage of individuals with the COVID-19 virus lack symptoms. Because an infected person can transmit the virus to others before showing any symptoms, the covering of a person's nose and mouth when visiting an Essential Business is necessary to help prevent the spread of COVID-19. This is consistent with the findings of the CDC and Dallas County Health Authority.

Staying home is the best way to help reduce the spread of the virus, but if an individual must leave their place of residence to visit an Essential Business, wearing a fabric face mask shall be used as outlined in this Order. Wearing a face covering is not a substitute for maintaining 6-foot social distancing and hand washing, as these remain important steps to slowing the spread of the virus. The face coverings recommended are not surgical masks or N-95 respirators, which are critical supplies that must continue to be reserved for healthcare workers and first responders.

The public in general and Essential Business employees shall comply with the following:

- A. To the greatest extent possible, all persons over the age of two (2) shall wear some form of covering over their nose and mouth, such as a homemade mask, scarf, bandana or handkerchief, when:
 - 1) patronizing an Essential Business; and
 - 2) using public transportation, taxis, or ride shares.
- B. This section shall not apply to persons that are:
 - 1) riding in a personal vehicle;
 - 2) engaging in outdoor activity;
 - 3) eating; or
 - 4) when wearing a covering poses a greater mental or physical health, safety or security risk such as anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the cover without assistance.

Children under the age of two (including infants) should not wear cloth face coverings. Those between the ages of two and nine should use them but under adult supervision to ensure that the child can breathe safely and avoid choking or suffocation. Children with breathing problems should not wear a face covering. Parents and Guardians of children under 10 shall be responsible for appropriately masking children pursuant to this Order.

All COVID-19 Suspected Positives, those currently being tested, and untested individuals with cough and/or fever, and household members of same category of individuals shall not leave their residence without a mask or cloth face covering to prevent the spread to others.

To the greatest extent possible, all individuals working for an Essential Business must wear a mask or cloth face covering whenever in public and whenever performing job duties in the presence of

DALLAS COUNTY

others. To the greatest extent possible, employers shall provide employees with a mask or face covering. An owner or operator of an Essential Business may refuse admission or service to any individual who fails to wear face covering.

Medical grade (N95) and surgical masks should be reserved and used only by medical professionals and first responders. Cloth face coverings are not intended for use by healthcare workers, first responders, and others whose work requires close contact with people who are ill.

Cloth coverings should be made in accordance with CDC Guidance, which can be found here: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>

You can also prepare for the disruption caused by an outbreak. Preparedness actions include:

- Prepare to work from home if that is possible for your job, and your employer.
- Make sure you have a supply of all essential medications for your family.
- Prepare a child care plan if you or a caregiver are sick.
- Make arrangements about how your family will manage school closures.
- Plan for how you can care for a sick family member without getting sick yourself.
- Take care of each other and check in by phone with friends, family and neighbors that are vulnerable to serious illness or death if they get COVID-19.
- Keep common spaces clean to help maintain a healthy environment for you and others. Frequently touched surfaces should be cleaned regularly with disinfecting sprays, wipes or common household cleaning products.
